- ❖ Holiday Parties
- ❖ *Your special event*

## Benefits For The Company

- ❖ Reduced absenteeism
- ❖ Improved employee morale
- ❖ Enhanced company appreciation
- ❖ Increased employee retention

## Benefits For The Employees

Studies by the Touch Research Institute in Miami, Florida show the benefits of chair massage have quick results. Immediately after massage sessions, the subjects experienced a change in brain waves in the direction of heightened alertness and better performance on math problems which were completed in less time with fewer errors.

At the end of the five-week study, subjects reported reduced job stress and improved moods. This was in addition to the usual benefits of massage, relief of muscular tension, revitalized energy, and a stronger immune system.

## Convenience

Chair massage can be performed in the workplace or at the event location as the chair is lightweight and portable. Participants will be seated upright on an ergonomically designed massage chair and will remain fully clothed. No oils are used, so there is no need for concern about stains on clothing. The session generally lasts from ten to twenty minutes.
